

## THE "E" JACKET PCD SYSTEM

Cap

PN5

Pressure  
Spacer

"E" Jacket  
PCD

Base

Cap (ParaLoc™ Pressure Holder)  
Base (ParaLoc™ Cylindrical or Tapered Pressure Holder)

### New From Paramount Die

- 360 degree contact for better heat transfer.
- Locked into place by the taper for better stability.
- PCD sizes from D12 to D24.
- Flexibility: Interchange PCD blank sizes and die geometries with holders of different diameters.

### Die Systems

- Designed for a variety of holders in pressure or non-pressure applications from tapered to cylindrical.
- Cylindrical holder diameter range from 1.5" (38mm) to 3" (76mm).
- Tapered holder diameter range from 1.5" (38mm) to 2.875" (72mm).

### Benefits

- Better die cooling.
- Better cast and helix control.
- Both thermally stable and metal filled PCDs are available.
