

POLYCRYSTALLINE DIAMOND DIES

Key Benefits

- Maintain uniform wire roundness.
- Offered in a wide range of diameters and casing sizes.
- Various grain sizes available.
- For use in wet and dry drawing applications.
- For use in pressure and non-pressure system applications.

Paramount Die manufactures polycrystalline diamond (PCD) wire drawing dies that can be used for a wide range of drawing applications.

PCD dies offer high resistance to wear and excellent wire surface finish. These precision dies are manufactured to superior quality standards enabling longer die life at high speeds and demanding applications.

Applications

Welding wire, stainless steel wire, tire cord, galvanized wire, saw wire, aluminum wire, copper wire, and specialty alloys.
